NEWS FROM THE LIBRARY

The Library is experiencing some problems with books not being returned by borrowers. While the majority of students and faculty faithfully return borrowed materials, some do not. If even 60 books are not returned at quarter's end, the University has either lost from \$1800.00 to \$2,000.00 per quarter or has had to spend \$3,600.00 to \$4,000.00 (original cost plus replacement cost) unnecessarily. Invariably, the books not returned are those needed by other students.

In the past, the Library has asked that an offending borrower's records be flagged and a hold placed on his transcripts until the books are returned, purchased or fines paid. We shall continue that policy and furthermore, beginning July 1986, the Library shall utilize the services of a collection agency to recover materials not returned.

Those who have not returned materials and are long overdue, return them to the Library as soon as possible. Any fines due may be paid later. The most important thing is the return of the books.
